REGISTRATION RECORD FALLS

TOP-HEAVY WIN OVER MARYVILLE

Highlanders Hold Kentucky's Weak Reserves to 14 Points And Score Placement

BOB DAVIS RUNS WILD TO SCORE FIVE GOALS

Regulars Play In Second and Fourth Quarters, Yet Amass 40 Points

By RALPH E. JOHNSON

A top-heavy, but not brilliant victory was scored by Coach Chet Wynne's Kentucky Wildcat football machine Saturday afternoon on Stoll field when they defeated Maryville college, of Tennessee, 54-3. Weak blocking and fumbles marred the play of the Kentuc-

Confident of victory, Coach Chet Wynne elected to start his second stringers in an effort to test them under fire. The Maryville team. half of them freshmen, held the reserves to 14 points and scored on them to boot. The three points, a result of kick from placement, was the first score Maryville has ehalked up against Kentucky sinee

While the second team would have gone on and won the game, it was very evident that Kentucky is woefully weak in reserve strength. Their work in the third quarter was nothing short of pitiful, for despite the drubbing administered to the Highlanders in the second quarter when the first team rolled up points on them, Maryville played the boys to a standstill and held them scoreless.

Perhaps their almost superhuman efforts had weakened them for the varsity entered the scene at the outset of the fourth quarter and erushed them under the amassed total of 28 points.

The play of Bob Davis was scintillating and he proved his right to the name of "Twenty Grand" as he whirled like a dervish time after time down the field to touchdowns. All in all, Bob rolled up 30 points in less than 25 minutes of play, and probably leads the nation's scorers.

horse on the squad known as Man O' War, stood out like your last sore thumb. His passing curate; his runs were devastating and tremendous power marked his

Saved, but not ln a joking way, was Pritchard. Very little of Kentucky's attack was displayed on Stoll field Saturday, and it is evident that in Pritchard there is an Ace-In-the-hole.

Long runs for touchdowns were the feature of the game. An 83-yard dash by Bob Davis was the longest of the day, and other runs ranged down from that figure to a buck of but five yards for a

Kentucky's first score came as a result of a return of a Maryville punt by Dameron Davis, Bob's brother, who dashed 44 yards along the right side line. Lutz added the point from placement.

Maryville, aided by penalties and two Wildcat fumbles, got down to the 'Cats seven-yard line, where on the fourth down Overly scored three points from placement.

As the quarter ended Wynne ordered the regular army onto the field. The dazziing speed of the so-called "million dollar" backfield soon engulfed the befuddied Highianders. In that quarter Kentucky's regulars tabbed 19 points

The third quarter was played by the 'Cat reserves. Neither team Both teams registered a single first down. There was no excitement. They might just as well have laid down and rested.

As the field was being reversed for the fourth quarter the regulars once more marched out to do battlc. Within one minute of play Johnson had scored a touchdown Four plays after the kick-off Bob Davis dashed off for his fourth touchdown, a 13-yard run around an end.

Within a very short time Kentucky set themselves up for another touchdown. A 10-yard forward pass from the strong arm of Johnson to Bob Davis was completed from their own 44-yard of new women students on the ing rooms, radio, plano, cots, and Whirling through a broken campus. field at a sprinter's clip, Davis raced towards his fifth and last

touchdown. That was the last of the regular scores, for with the plucky High-lands cut and bleeding, and no George Kurtz. Hostesses were longer enjoying the sport, Wynne Theo Nadelstein, Jane Freeman, Alumni association who have sub-jerked his man-eating Wildcats Kathryn Parks, Frances Sadler, scribed to the paper through the tember 25 and 26. Doctor Funk-

HERE SHALL THE KERNEL ALL STUDENT RIGHTS MAINTAIN

IN OUR OWN BACK YARD

It needed only the Saturday All-Campus dance to prove conclusively that the hops have become a permanent fixture among the social events on the campus. This is the third year now that these affairs have been sponsored by officials, and that they will ever prove to be less popular or useful seems, at this point, unlikely.

In a sense, it behooves the University to give its students as much entertainment and recreation as possible. No one will deny that it is better that students find their pleasures within the domain of the campus than in some "night spot" or in letting off steam in running to dances all over the vicinity. If students can find adequate recreation in their own back yard, so much the better.

And yet, for a long time the administration was unable to realize this. It looked with disfavor upon the original mid-weekly hops. So much so, in fact, that the University Senate only conceded their continuation by changing their date from Wednesday to Friday. Whether or not this body thought it was creating a slow death for the hops is not known, but the fact remains that for many reasons Friday is not so favorable a day for the dances as is Wednesday.

For the following reasons, this might be true: (1) the prime purpose of the hops was that they serve to break the monotony of the school week. A dance on Friday, no matter of what nature, does not do this; (2) other organizations depend upon the Saturday night dance date to assure both the pecuniary and social success of their affair, and a dance on Friday certainly would be no help to them in that respect; and (3) when the Senate changed the date, students were already accustomed to the Wednesday night date and there was no indication that they would fall in with the Friday night set-up.

Of course the Senate gave as one of the reasons for its action the fact that the dances interfere with the study habits of the studentry. Here it had, aside from those of an intangible nature, the lone brief against the Wednesday night dances. Nevertheless, that body seemingly failed to realize that in the majority of cases classes which meet on Thursday, meet again on Saturday. Thus, so far as the Senate is involved, it seems that students are still neglecting studies for a social affair sponsored by the University.

That such is not the case is apparent to those persons who have an eye trained upon the welfare of the student body. Fortunately, the dances of Friday turned out to be almost as popular as those which had formerly been held on Wednesday. This seems to prove conclusively that the All-Campus affairs fulfill a need in the social plan, none to substantial as it is, that is so necessary as to be impossible to deter by such methods as the Senate used.

'Those persons with a genuine and clearsighted interest in the well-being of the students, have long since realized the worth of the hops. It is unfortunate that the Senate has so declared itself that, at present, it would be almost impossible for it to see fit to change to serve as the only practical social event in a maze of utterly impractical affairs on the cam-

their campus camps.

Our only excuse for this mistake is that when we sit down to a typewriter with orders to produce copy and do it fast, we don't have time to run to the library for verifica-

We don't anticipate any libel suits for both of the gentlemen involved have long since passed to their reward. Descendants from both lines no longer held copyrights on the stuff (as evidenced in Hollywood productions of recent date.) Both of the men, if living today, should feel equally flattered that the quotation should be credited them. And anyway it was just buil session and who cares outside the English department anyway (P. S. We might have used that oldgag about making a mistake just to see who was reading the column -but we know you're on to that).

Rush week for the fraternities is over for a spell. Now those dis-illussioned frosh will begin to find out that all that glitters is not gold. Sometimes, as we survey the conditions that exist during rush week, we are of the opinion that the "controlled" system as used by the sororities is much superior.

To meet a freshman at the train and "date him up" for a week, put him through as dizzy a social whiri as can be dcvlsed, and then when the boy is thought to be almost unconscious, buil doze him into taking a pin. As he emerges from the pressure chamber he is greeted by the "brothers" who tell him he will never regret this step forward. But on the morrow he starts regretting it, for the paddles appear and he nops to every command.

When a "mucker" emerges from a cassion pressure chamber he is put into a room that gradually lowers the pressure until he can stand normal again without suffering the "bends." A frosh is relieved of his pressure in an instant. He gets the 'bends' — "Bend over and grab your ankles."

our ankles."

That is one of the things that five with a pencil." Strangely, evmen do that eauses us to rather iose faith in civilization. It takes us back to barbarie days when men were cruel. Men today are inher-ently cruel. They eroud fight aren-stampede of red lights racing down as to watch puglists batter one anthe Paris pike, all headed for ham-other senseless, or grappiers crush burgers and home. After those other with torturing holds. Any accident is followed by a rush of human beings to see with their own eyes the spiiled blood, the agonized flopping of the dying.

Bceause they enjoy hurting, some fraternities eiting to the paddie. strong arms wield them with devastating effect. Little do they realze what a horribie thing they do. With a mighty arm behind a thick paddle, thousands of tiny capillarys McCammish, the object of so many are burst millions of eells are crushed only to be rebuilt, necessarily draining energy from some-where. Apparently no other damage results than a bruise making it dif ficuit to sit down for days, yet somehow it must border on the sinful to do such a thing to God made

They told us we were crazy when we voiced similar views as a fresh-man. You will get over it when it's your turn to do the paddling, they toid us. We very definitely have not! Never will! Plan to erusade against the practice!

While we do not favor paddling as a sport, we do favor a revised system of hazing for freshmen going through a pledge period. There are duties that may be imposed, penaities inflicted for misconduct (including paddiing, but that is the only reason), and then during "hell" week there are many amusing things to be done. It is ail part of the game they play here at coi-iege called "Fraternity".

We are reminded as we write this of a conversation we had with a brillant young lady not long ago. Said young iady stated that there is no humor except at the expense of someone eise. The funniest gags poke fun at someone. At first I thought that was quite right. I know that stooges were developed for that one reason. Jack Benny is his own stooges; nothing is much funnier than a person falling. Chaplin, Harold Lloyd and others depend on embarrassing situations for laughs. See if you can think of humor not based on humility. Certainly the fun boys have during week is based on embarrass-

When Mayme and Lucy Maddox came back to school they found out they were married. At least, that's what they were told. But it's untrue. The sensitive Lucy took another look at the social bedlam here and decided that one year of it was enough, providing she is no ordinary character. The Military Bali Queen is now back in Georgia where life is gentle and placid. However, Mayme has stayed on and will help keep the Chios an Interesting lodge.

A mineralogist says that platinum is so malleable and deuctile that less than an ounce of it can be drawn into wire fine enough to encircle the world a number of times.

of Swing Fame. And according to Fred Bringardner, Carl Vannoy, and Reynoids Watkins, when Andy departs, there will be dancing in Kappa Lucille Thornton visited the streets.

apel, men and scratch sour grapes.

When Bain Hillenmeyer went west this summer she tossed the proverbial monkey wrench into the complacent quartet of Bain vs. Lid-Lou Hillenmeyer vs. Martha Alexander. The peculiar action took place at the Joyland auto corrai. Lidley, Lou, little Martha, and an unidentified gal were enjoying this and that at the aforementioned amusement asylum. Somehow they got their partners White everybody is crating about the cute yearlings and the football mixed and trustworthy information team, iet's not forget the unfor-tunate fellows who came back to on a secret rehearsal with Lidley school too early. True, the grid-playing the part of Louey. Do I iron giants, drilled in drillies and hear a hiss from honor among groveled in the dust and heat long men?

Chit Chat With Chet

Monday morning Bart Peak dropped in to see Chet Wynne, congratuiating him on a splendid talk given before the Rotary club, and ask permission to assist in coaching the frosh football squad. Permission was granted to him, of course, for his request was a mere formality. The following conversation took place:

Bart: "I've been going out on that field since 1920, with the exception of one year when I lived in Florida. I've seen eoaches come and go."

Chet: "What's the matter Bart? Are you saying good bye

to me already!" Bart: "No!" For I've always said ali we needed is a good man and then keep him. Vanderbilt had McGugin and they always beat us. Stagg at Chicago always put out good teams. Kentucky never had a full time coach who was paid to devote ali of his time to football until Gamage. He did all right, but he couldn't handle the boys."

Shop Sights

By BETTY EARLE

Well, gais, Tippy him?) was extremely inquisitive Saturday, so he hunted out some fine ideas for you. First of all, he finniggled (never did know just how to spell it1) the busy director of the Campus Shop at Denton's into a little tete-a-tete. The result was the discovery of some lus-In All Its Glory clous looking new knit suits. They are cailed "semester knits" and are made of Australian cashmere. You spirit which has actuated the many have your choice of styles-a round collar fastening into three but- in the year. tons, a boat neck, or a tiny V-neck. The prize of this type is one of blue brushed wool (oh, so soft) and a unique eross-ribbed knit-zipper pocket and boat neek-belted. "Exeiting," you'll say, when you see the Scotmist suits in all the latest colors—pottery green, cherry, rust, brown, Aloha blue, and camel. Then, too, there's heatherknit in eamel shade with an ascot tie of contrasting plaid, patch pockets. and a narrow leather belt. Jerseys are in again—gray with small brown buttons or trimmed with a red and brown fastening laced across the shoulders. The price range is from

\$5.95 to \$13.95. I don't know about the rest of you, but I have a sneaking suspicmother; Bettie Gilbert, president; and Anne Law Lyons.

A 100 guests are expected.

SEEING SPORT STUFF By JOE QUINN

KERNEL SPORTS EDITOR

Kentucky's footballers broke from the barrier against Maryville jast Saturday in fairly impressive fashion, even though the majority of the critics did not think so. We are of the opinion that, under the conditions the performance of the club was all that might have been expected.

While the starting team, composed of sophomores for the most part failed to present a startling exhibition, the first-stringers gave every evidence of being the team they have been heralded. That is, they presented the evidence of later-season brilliance.

least it seemed so in the press box.

team.

as it was necessaryi

The game, of course, was the: year's curtain-raiser and the usual that came from the stadium. At September heat slowed up the play. Also to be considered is the fact that the quarterbacks were calling only as few plays as were necessary and the limiting naturally does not make for wide open developments.

Even with the small choice of plays the first team had no trouble scoring aimost at will against the willing, but hapless, Maryvilles. Several individual performances enilvened the afternoon's preceedings and brightened up what might otherwise have been a drab exhi-

Bob Davis, with five dashes for scores, grabbed the major portion of the spotlight. The Dayton boy looked better than ever last Sat-urday and if his play against the Highlanders may be taken as a criterion, he's due to enjoy an even better season than last.

One of the pleasing things about the "test-tube" game was the return to oid-time form of Bert Johnson, who has apparently shaken off the injuries which handicapped hlm iast year. A whole lot of Kentucky's success wili depend on the manner in which Bert goes from now on and if he's right a lot of worries will be over.

Gene Meyers gave the outstanding exhibition in the line and stood out with two pass interceptions, one with a neat runback. The entire front wall of the first team played well although showing need of a little polish which only com-petition and practice will furnish.

Bob Pritchard, surprise choice for the starting fullback position, gave a good account of himself, although carrying the ball only once. It is extremely likely that Pritchard will do a lot more of the lugging against

Xavier this week. And as we said above, it was the first game. And the boys still did pretty well.

George Spencer, Kernel editor, was in the press box last week, the first time that the new press accomodations were used. From here on he tells the story

There were only a few of us on hand to dedicate the new press box Saturday and we suppose it is our duty as the representative of this newspaper to report just how things went on.

To our uninitiated eye, the box is a pretty marvelous and complete affair. We were fortunate enough to get a seat right smack in the center of things. On our right was Ralph Johnson and associates in the public address system booth and on our left was the radio broadcasting room where the WLAP boys were merrily giving the

game to the world. We could hardly wait to see the "South's Rose Bowl candidates number one" in action. Before the game the punting as seen through the huge plate glass windows being done by Bob Davis and Sunny Boland looked much better than that of last year. Some of them were zipping along for 50 and 60 yards

Just as the Maryville squad came onto the field the telegraph opera-tors began clicking out news of the approaching tussle. The red team looked awfully light but, as it developed later on, size is not much indication of luck and those boy's certainly were plucky.

Although there seemed to be no danger of any upset of the dope bucket, we breathed a trifle easier when the first team came in at the beginning of the second quarter. At this point, it seems doubtful if the fans are going to be disappointed in Bob Davis and Bert Johnson. Davis by himself rattled off some 250 yards from the line of scrim-mage and Johnson something like 110. Gene Meyers appeared in the spotlight when he intercepted two Maryville passes in the flat. He ran about 30 yards with the first.

During the half Professor Gre-han and Doctor Funkhouser, two of the "fathers" of athletics at the University, came up to see how the new box was working "in actuai practice." All the scribes agreed

that it was a fine thing.

Just for the record, we might jot down the writers who were in on the "dedication." There was Brow-nie Leach of the Leader, whom we bothered all during the game, Neville Dunn. Ed Shannon, and Bud Wallace from the Herald; Bruce Dudley and Gerald Griffin, Cour-ier-Journal, the latter athletic publicity director here, and his assis-tant, George Kerler; Gii Kingsbury, our first boss on the Kernel, Helen King, assistant to Bromo Sulzer. now sports editor of the Kentucky Post was there for a while; and several others whom we ean't just recall. Joe Quinn, for whom we are pinch-lutting today was around awhile but he had other duties flashing plays to the boys on the score board, so he left.

The fellows in the press box were never in doubt as to what the score added up to as the boys from the Herald had up a jack-pot by which the last number of the total score of the game would win the prize for its holder. When Lutz scored the last touchdown, Neville Dunn, whose number was seven, let out a yell which drowned out the roar

For hundreds of years the Persians have known the secret of fine flavor. In the dead of night a Persian "melon-diviner" may wake up his wealthy master to enjoy the perfect melon-picked by lamplight at its exact moment of full maturity.

The Secret of Fine Flavor..

Like the Persian melon, the Turkish tobaccos used in Chesterfield are watched day and night.

There is just one right time to take off the leaves...that's when they have ripened to their fullest flavor.

Often the tender ripe leaves are gathered just before the dawn...to preserve the full "spice" and aroma for Chesterfield.

> Chesterfields are made by Liggett & Myers Tobacco Co.

... and you can depend on a Liggett & Myers product

CHESTERFIELD

of the Mediterraneau for the fine flavor and

aroma of Turkish tobaccos. These tobaccos

give Chesterfields their milder better taste.
